

# ARCHER RECRUITMENT

## Job Specification

**For: Senior Full Stack Engineer**

Ref: VR/24721

### Job Description

---

We are looking for a motivated, and highly experienced Full Stack Engineer to join our engineering team. As a core member, you will have the opportunities to lead and contribute on designing, developing, and maintaining robust applications across the front-end and back-end, ensuring seamless integration and superior performance. You'll also serve as a key technical leader, advancing the technology stack, optimizing performance, enhancing developer workflows, and building innovative cloud & AI native software solutions.

### Your Responsibilities

- Design, develop, test, deploy, maintain, and improve software for new features.
- Identify and evaluate new technologies to improve our platform.
- Develop, test and optimize code for performance, maintainability and standards.
- Contribute in code reviews and make recommendations.
- Use CI/CD techniques to ensure clean working environments and agile deployments.
- Debug and troubleshoot cloud-based applications.
- Work closely with our product and design teams to define feature specifications.
- Participate in all aspects of the SDLC

### Person / Experience Required

---

#### Our Ideal Candidate

- Extensive experience in design, develop, deploy and maintain cloud native application
- Ability to lead project and collaborate with cross-functional teams
- Passion for learning new things and a desire to continuously improve
- Deep sense of product ownership.
- 7+ years of product development experience.
- Strong programming experience in Node JS/React JS.
- In-depth Experience in building cloud-based applications on AWS.
- Experience with NoSQL data stores, preferably Dynamo DB.
- Experience in GraphQL, Lambda, Event driven architecture, CI/CD tool, AWS CDK a plus
- Able to work in a hybrid environment, 3 times a week in the office.

#### Who you are

- You are a problem solver who does not shy away from tackling complexity and critical thinking
- You have a strong will to learn, grow and get out of your comfort zone
- You have a great energy and passion for technology

---

### **Benefits package**

- Base salary + equity (stock options)
- Pension contribution with company matching up to 3%
- Health, dental and vision for employee and family
- 20 days paid annual leave
- Travel and cycle to work schema
- Free lunch on office days
