

KING STREET[®]

CAPITAL MANAGEMENT

CONFIDENTIAL

POSITION DESCRIPTION

COMPANY: King Street Capital Management, L.P.

LOCATION: Dublin

POSITION: Developer

FIRM DESCRIPTION

King Street Capital Management is a global alternative asset manager founded in 1995, managing approximately \$29 billion across public and private markets. The Firm takes an opportunistic approach, combining deep fundamental research with tactical trading and differentiated sourcing to identify dislocations and mispriced opportunities across asset classes and geographies.

King Street's credit offerings span hedge funds, special situations drawdown vehicles, a growing suite of private credit strategies and a global CLO platform. Our special situations offering deploys capital dynamically across corporates, asset-backed and claims investments, often in less efficient markets where King Street's fundamental underwriting and process-driven approach can unlock asymmetric risk/reward opportunities. Private credit strategies maintain flexible capital to target senior-secured investments in companies undergoing transition, asset-based lending, and dislocated credit—areas where the Firm applies a distressed investor's lens to structure flexible capital solutions.

In real estate, King Street manages a dedicated platform through its Real Estate Funds, investing across North America and Europe. The strategies focus on debt and equity investments in special situations and thematic opportunities. Our special situations strategy identifies compelling risk-adjusted investments across the capital structure, in high-quality real estate assets in major markets. Our exclusive, thematic platforms are built around property sectors with compelling secular tailwinds. The Firm's real estate investments are designed to capitalize on market dislocations and structural inefficiencies, supported by rigorous underwriting and a global network.

With eight global offices including New York, London, Singapore, Tokyo and Dubai, King Street is committed to delivering differentiated investment solutions that align with institutional investors' evolving objectives.

DEPARTMENT OVERVIEW

Working directly with all areas of the Firm, the Technology Department plays a critical role in maintaining a seamless infrastructure and in developing proprietary solutions tailored to the Firm's investment activities and operations. In particular, the Development group is heavily involved in building custom tools for risk management, research, trading, cash and position reconciliation, pricing, P&L attribution, collateral management, fund accounting, and investor relations. The Infrastructure group is responsible for enhancing and maintaining the Firm's network and server infrastructure and providing global support for our end users.

JOB DESCRIPTION

This individual will be working closely with the Development team focusing on software design and development to solve problems and provide accurate, complex, scalable applications that contribute to the growth of the Firm.

Specific responsibilities include:

- Develop innovative functionality in existing and new products across all business lines, as well as continued support and maintenance of the product suite
- Involvement in the entire software development lifecycle to build and automate solutions, from requirements and design reviews through the implementation of a product

King Street is committed to equal employment opportunity and providing reasonable accommodations to qualified candidates and employees pursuant to applicable law. We value and encourage diversity and solicit applications from all qualified applicants without regard to race, color, gender, sex, age, religion, creed, national origin, ancestry, citizenship, marital status, sexual orientation, physical or mental disability, medical condition, military and veteran status, gender identity or expression, genetic information, or any other characteristic protected by federal, state, or local law. If you require reasonable accommodation as part of the application process, please contact King Street's Human Resources team at careers@kingstreet.com.
