

AA IRELAND

About the AA

The AA (Ireland) is Ireland's premier motoring organisation, established over 110 years ago. With headquarters in Dublin, the company currently employs approximately 785 people across Ireland and is regulated by the Central Bank of Ireland for its insurance operations.

Best known for AA Membership and roadside rescue, our trained mechanics in the AA Patrols fix 8 out of 10 breakdowns on the side of the road, 24/7, 365 days a year. In addition to our expertise on Irish roads we are also one of the country's leading insurance providers. Our track record of providing reassurance, support and innovative thinking is unrivalled, finding the cover that best suits our customers, at the best possible price. We provide AA Membership, AA Car Insurance, AA Home Insurance, AA Travel Insurance, AA Approved Used Cars and AA Car Servicing.

Senior Software Development

- **Three focus areas:**
- Software development ownership
- End-to-end delivery
- Best practices implementation
- High-performing engineering culture
- Cloud platform modernization
- Microsoft Azure focus
- Legacy platform retirement
- Cost, security, resilience guardrails
- AI integration and governance
- Promote AI tools (GitHub Copilot, etc.)
- Establish AI genetic code governance
- Business-wide AI emphasis

What You'll Do

- Play a key role in a major technology transformation within a large-scale organization
- Modernize platforms, tooling, and development practices at scale
- Shape how AI-assisted development is adopted across engineering teams

- Work within and contribute to a strong, modern engineering culture focused on continuous improvement
-

What You Bring

- 5 years' experience with .NET/C#
- 5 years' experience with SQL
- Proven Azure cloud migration or cloud-native delivery experience
- Strong understanding of CI/CD, containerization, and DevOps practices
